Brief Introduction of Your Startup

Codelits Studio is a tech company focused on building innovative digital solutions that simplify real-world challenges. Our mission is to empower businesses and individuals through cutting-edge technology and AI-driven tools. We operate as two studios: Labs: B2B services including product development, AI/ML solutions, and cloud/DevOps services for clients. CloudX Suite (Ongoing SaaS Products): AiSys: Central AI engine powering CloudX applications & General use. Ascenra: AI-driven project management platform with task automation. Finsero: Advanced finance management tool with SOW-backed milestones, managed escrow, and real-time financial dashboards. Key highlights: Expert team in AI, cloud, and full-stack development; ongoing development of scalable SaaS products; strong focus on innovation and enterprise-grade solutions.
